REGISTER OF RAINFALL IN 1910.

FORM A2. BRITISH RAINFALL.

20 MAY 1911

Kept at Nantymenadd

in the County of Cardigan.

by Wm. Roberts. 4

RAIN GAUGE { Pattern ..... Diameter of top ..... in. Height of top above Ground ..... ft. " " " Sea Level ..... ft.

Time of Observation .....

Nearest Railway Station { Name ..... Distance ..... Direction .....

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1910

FORM A2. BRITISH RAINFALL. 31 JAN 1911

Kept at Abergwynagy 5

in the County of Radnor Cardigan

by E. A. Lees Esq

RAIN GAUGE { Pattern ____ Diameter of top ____ in. Height of top above Ground ____ ft. ____ in. „ „ „ Sea Level ____ ft.

Time of Observation ____

Nearest Railway Station { Name ____ Distance ____ Direction ____

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1909

FORM A2. BRITISH RAINFALL.

Kept at Talcondale, Lampeter

in the County of Cardiganshire

by Wm Taylor

RAIN GAUGE: Pattern Snowdon; Diameter of top 5 in.; Height of top above Ground 1 ft. 10 in.; " " " Sea Level 498 ft.

Time of Observation 9. a.m.

Nearest Railway Station: Name Lampeter; Distance 1680 Direction S.E.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

Nearest Railway Station: Name Lampeter
Distance 1680 Direction SE

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1910

FORM A 2.
BRITISH RAINFALL.
9 JAN 1911

Kept at Towyfechan

in the County of Caron Upper 4 Cardigan.

by Aystradmeurig Cardiganshire

RAIN GAUGE: Pattern ____ Diameter of top ____ in. Height of top above Ground ____ ft. ____ in. " " " Sea Level ____ ft.

Time of Observation ____

Nearest Railway Station: Name Dawd Roberts Distance ____ Direction ____

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.
